

COVID-19 DECONTAMINATION SERVICES

PREVENT

*WINMAR® technicians take extra measures to conduct **deep cleaning** of high traffic areas using an approved cleaning product. The CDC states that cleaning high-touch surfaces daily is a **best practice** to prevent the spread of viruses.*

RESPOND

*The WINMAR® team is ready and fully equipped to respond immediately in your **time of need** if a **COVID-19** case has been confirmed or presumed in your business, workplace or community.*

We are dedicated to employee and public safety, and follow the CDC and Health Canada guidelines and standards of cleaning practices, procedures, and use of approved cleaning products to combat the Novel Coronavirus (COVID-19).

WINMAR®'S MANDATE

- Ensuring all our cleaning technicians are safe; our same commitment to you.
- Conduct a deep cleaning of frequently touched surfaces including the application of DIN registered cleaning products (Health Canada).
- To follow the CDC, IICRC and Health Canada cleaning guidelines and procedures.
- For any suspected or confirmed case, we involve a third-party industrial hygienist to validate the appropriate cleaning methods required.

Contact Your Local WINMAR® Office
