# LOCATIONS AND SERVICES ACROSS CANADA

.....

Natural disasters, accidents, and catastrophes can strike at any time due to Canada's diverse climate. Fire, water and wind damage take place regularly and can be devastating for property owners.

When you have been affected by a catastrophe, choose WINMAR® to restore your property to pre-loss condition. There is a reason we are Canada's first choice for residential property restoration; our fully trained, well-equipped, and qualified crews are ready to serve you 24 hours a day.

When you hire WINMAR®, you'll have a team of fully licensed general contractors and professionals taking care of your restoration project from start to finish. Our teams use advanced technology for estimating services and follow stringent safety protocols on and off-site. You can rest assured that your building restoration will be completed at top-quality standards, within budget, and within a competitive timeline.

- 24-hour Emergency Services
- Computerized Estimating
- Construction Management
- Loss Assessment & Scoping
- Quality Customer Service
- Full Project Management
- Specialized Equipment
- Health & Safety

# OUR APPROACH

.....

We treat each customer's claim as if it were our own, applying the same standards of quality workmanship that we would expect ourselves. Your WINMAR® project manager will work with you and your insurance representative to make the claims process painless. At the start of each residential restoration project, your representative will take you through the WINMAR® Customer Information Booklet and ensure you are informed about the entire process related to your claim.

## FIRE DAMAGE

There is nothing more shocking or terrifying than a fire in your home. Whether it's a small stovetop fire or your home is caught in the path of a wildfire, the damage can seem overwhelming. Getting back to the normal comforts of home can seem very far away. WINMAR® is here to get you through these tough situations with complete fire restoration services.

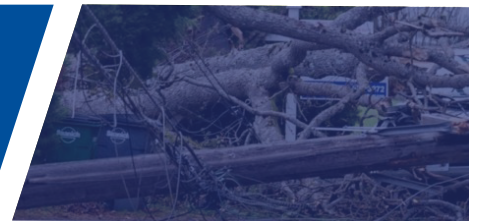

## WATER & FLOOD DAMAGE

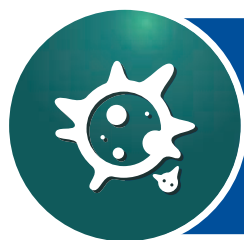

From a leaky roof to cracked foundations, water will find a way into your home when it can. When left untreated, the damage to your home – and potentially your health – will continue to get worse as wood rots and mould builds. WINMAR® has the expertise and the equipment to fully assess and treat your home for water damage, returning your family to the comfort you expect from your home.

## WIND DAMAGE

When not attended to promptly, wind, hail, lightning, ice storms, tornadoes, and hurricanes can all cause severe property damage and impair the structural integrity of your home. Significant secondary damage (such as water damage) may also be caused by these events.

## MOULD REMEDIATION

Mould is a naturally occurring substance, but that doesn't mean it cannot make its way indoors. In nature, mould serves a purpose. Indoors, mould can grow and multiply rapidly, causing health problems and property damage that are difficult to deal with. Our mould remediation experts are trained to remove mould safely and return your property to its original state.

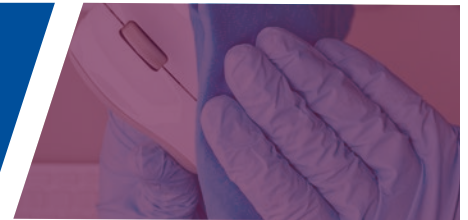

## ASBESTOS REMOVAL

Asbestos can be found in materials such as insulation, flooring, plaster, textured ceilings, register vents, duct wrap and roof shingles. If you suspect that you have asbestos in your home, avoid disturbing the materials yourself as it can release harmful fibres that, when inhaled, can cause severe health problems. Call the experts at WINMAR® to have asbestos dealt with quickly and safely.

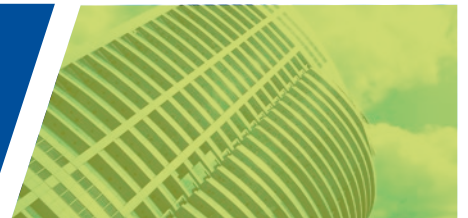

## DEEP CLEANING

A healthy home is a happy home. WINMAR® deep cleaning services help ensure your surfaces are free from viral pathogens. Prevention and response are both critical when there is an epidemic or pandemic that could severely impact personal and public health. From protecting your family to preparing your home for sale, WINMAR® is here to help.

## GENERAL CONTRACTING

As your complete property restoration specialists, we handle residential, commercial, and institutional construction projects across Canada. Our general contracting services make property restoration, renovations and construction projects a simple and straightforward process.

## 24/7 EMERGENCY SERVICES

WINMAR® teams are known for their rapid deployment to damaged properties. Our self-sufficient teams can handle virtually any level of damage. We will bring your home back to pre-loss condition quickly.

Call WINMAR® when you need rapid emergency response. We can provide temporary measures and initiate emergency procedures to reduce the impact of the property damage.

# SUSTAINABILITY AND ENVIRONMENT

.....

It is WINMAR®'s policy to operate our business as a responsible corporate citizen, committed to our community with detailed environmental management. Our focus on the future extends to the responsible selection of our fleets, including consideration for the sources of power used by our equipment. We also strive to reduce the amount of debris sent to landfills by using green products and through the restoration of our customers' personal items whenever possible.

# COMMUNITY FOCUSED

.....

Our focus on family, teamwork and community are among our core values. WINMAR® is proud to give back to the community. Across the country we are members of the local communities in which we work. From sponsoring local teams to donating to local charities, we want to make a difference in our own backyard.

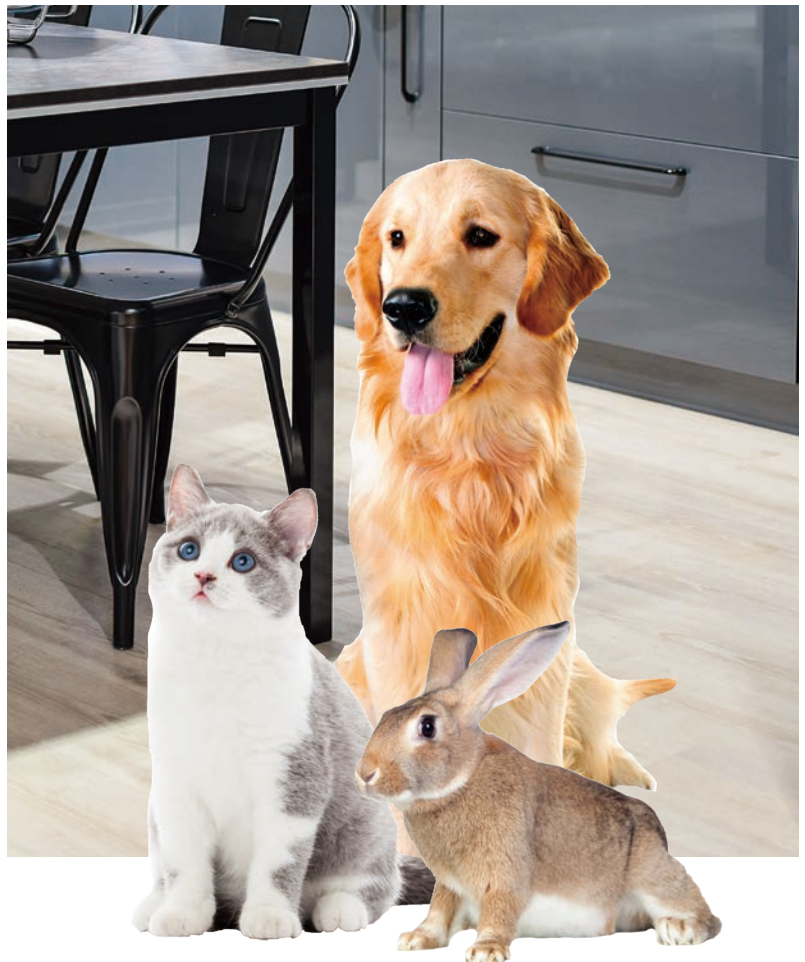

# PET FRIENDLY POLICY

.....

Do you own a pet? At WINMAR®, we understand that pets are members of your family and they have been affected by this loss too. In order to ensure the safety of your pets and our staff, we kindly request that arrangements be made for these special family members to stay in an area or location away from where we are working in your home.

It is in everyone's best interest, especially your pet's, to keep them safe, happy and away from the damaged area while we work hard to bring your property back to pre-loss condition.
